Also unless nutrients are proven to be safe by science, don't eat!

Bio Functional Foods/Gels are fortified, fermented and enhanced foods to provide nutrients during drought and flood environments and also to supply the supermarkets, Asda, Tesco, Aldi, Co-op, other super market/retail outlets... and also for charitable organisations.

Bio Functional foods/Gels are gels grown from bacteria, fungi and algae (utilising synthetic biology (see [bio-ethics in book](#)) and fermentation), grown under laboratory conditions on an industrial scale. The functional gels/foods would contain NAD+, Sirtuins, trans-resveratrol, protein, minerals, vitamins and other health beneficial ingredients also derived from fruit/vegetables.

Pattern(s) of Evolution

The patten of ecology within a petri dish will show that equilibrium of the bacterial polarities within the bacteria colony of the petri dish will balance to equilibrium; proving equilibrium of the polarities is a patten of the ecology within a petri dish. The pattens of equilibrium are in science evolution and also natural-relationship evolution; the science hypothesis is that evolution is not competitive at quantum or molecular level, even at relationship level as shown with the Taoist symbol (*see TaoEvolution symbol - [yin/yang coevolving mutualism](#)*).

The cruel shy

The yin yang symbol represents co-evolution.  
via: - co-evolving mutualistism! or via co-evolving debate!

### The perfect relationship and the patterns of science evolution

## Entanglement hypothesis

The science hypothesis: there is pattens and similarities/parallels of up and down quarks within pattens of atmospheric water molecules whereby tunnelling and entanglement and the two up and two down quarks (*perhaps also interactions with leptons/bosons*) of neutron(s) and proton(s) have similarities with atmospheric water molecules and the resultant patten(s) of quantum entanglement, within quantum atmosphere entanglement.

So, we breathe in and out quantum entangled quarks; that suggests that quantum atmosphere entanglement is the vector of quantum entangled thoughts, though the way to prove thought = energy, internal and external to the physiology is via Quantum-enzymology and Quantum-chemistry of which is perhaps necessary together with an new branch of mathematics and laboratory experimentation to prove the resultant hypothesis derived from the question(s).

See question: - Question for the Quantum-Biologists and Enzymologists: - How does a cerebral-fluid enzyme hold audio and visual memory (*i.e., a Chinese character and associated audiometry*); before, during and after transmission of neurotransmitter from one neuron to another neuron.

A laboratory experiment is necessary; whereby simulated cerebral-fluid is within a petri-dish, containing neurotransmitters, neurons and enzymes with a control mechanism transmitting the neurotransmitter along the polarised neuron to the enzyme, and some mechanism to quantify and qualitatively compute how an enzyme holds memory, other than quantum entanglement and tunnelling; there is some other mechanistic unidentified phenomenon not yet known. If you have a reasonable hypothesis as to how, please do not hesitate to contact me at [johnlawrencecking@bio-functional-foods.com](mailto:johnlawrencecking@bio-functional-foods.com) for dialogue.

## The origins of the universe Hypothesis

Hypothesis - big bang was initiated by the first quantum polarity by God (*an laboratory science experiment to prove or disprove if energy is intelligent or not is required*, if there is no god, there is nothing but monarch FAKE gods) initiation of matter and antimatter to initiate the big-bang and evolutionary space-time. The hypothesis is that dark energy evolves into dark matter (*via rotating universe/galaxies, the spiraling galaxy are an quantum-mechanical-system, the input into the system is dark energy and the output is dark matter, towards universal-inflation of space-time*) thereby the resultant inflationary/evolutionary space-time and gravity and space-time are correlated.

The patterns of evolution are shown in evolutionary biology, evolution of parallel learning techniques and also quantum evolution; similarly, the pattens of evolution are within the origins of the universes, there was two quantum polarities (*perhaps even parallel universes*) initially in parallel before merging to create the big bang.

The patterns of the origins of the universe are similar with quantum polarity/affiliate and chemical affiliate for molecular evolution, similarly with species evolution there is polarity between male/female not only with the obvious though with brain structure and density of the neurons are different between male and female neurologically speaking.

Perhaps it is reasonable to hypothesise that the first quantum polarity was initiated via a mass of congealed energy that initiated evolution; the hypothesis is that the patterns of evolution were initiated to create an organic system for evolution; *the rationality and purpose of life is to live, to love and be loved and evolve, preferably co-evolution or debate*. The patterns of co-evolution are within the physiology between immunity and pathogens; the same patterns of co-evolution exist between the bacteria and fungi... in the soil that plant-life (*prokaryotes*) are dependent upon - Hypotheses by John Lawrence King.

The soul is the same, male/female the soul is the same, derived from the evolved energy from the origin of the universe is part of the hypothesis.

#### The Patterns of science Evolution to co-evolve with the quantum-science renaissance.

The area of evolution within the patterns of science evolution is the equilibrium of the Taoist symbol and the kabbalist symbol: -

That area of equilibrium is a parallel learn system of the Taoist symbol and the kabbalist symbol, the neutrality of the quantum equilibrium creates quantum atmospheric harmony...see quantum atmospheric Tao: -

**Positive harmless evolution, combined with environmental sustainability will create long term sustainable peace". Kind regards John Lawrence King**

A mile-square-gated-community would be suitable for housing the UK elderly, so that independent living within a communal community would be a safe and happy community to live within UK and perhaps elsewhere; also with self-reliant (financially, also food production via internal roof-greenhouses) and a railway system for communal travel between shops and industries.

Those that need funding for governmental-industrialism would perhaps like to consider floating governmental-domestic and/or industrial-bonds on the stock exchange to restart/save/enhance the economy.

*This website is not for control or power other others, though*

In the UK, equilibrium between left and right would perhaps unite the Welsh, Scottish, Irish, and English people in Peace via a voting/Referendum system; *this pattern of equilibrium sustainability would create/make and keep long-term-sustainable-peace elsewhere, peace could be created if antagonistic-opposites in Christianity Where/are reduced (perhaps via co-evolving mutualism)*; and as there has been no sustainable peace in the UK for thousands of years a referendum for no monarch on the throne in the UK so to stop the monarch(s) competitive behaviour and bring long term peace with the UK populous.

The solution to long-term-global-peace is compatible political philosophies, perhaps The peoples democratic republic parties would make and keep sustainable peace.

*Perhaps I should clearly state that my book and websites are NOT an election or Monarch campaign John Lawrence King*

*Co-evolving debate and co-evolving mutualism is the solution at all levels though.*

*'Equilibrium of yin-female/yang-male will diminish the divorce rate via sensitive debiative mutualism' Whereby two souls grow and stay together via co-evolution mutualism. kind regards John Lawrence King*

*'Equilibrium of the parties/polarities will keep peace towards communal-living'*

*'The patterns of science evolution are Equilibrium of the polarities'*

PROOF:-

The laboratory experimentation of two laboratories often produces the same results if applied to real science in the absence of agender-based thinking of hierarchical management;

With real science (*not pseudo-science - or management*) the two laboratories are using the same science data, equipment, and methods of which, would evolve the same results if there is no faults in the derived experiment. Thus, proving that the two laboratories would evolve the same results in a non-competitive-way; therefore, non-competitive-equilibrium of the polarities is the patterns of science evolution.

Speaking as an environmental scientist, a [note for governmental managers of first-world-countries](#) - it would be self-preservation to freely share clean-technologies with second and third world-countries so the pollution is minimal during industrialisation of the different economic cycles.

Also chemical affinity filtration systems (*via viroous chemical affiliate bonds*) to diminish chemical and partial pollutants from industrial unit chimneys - kind regards John Lawrence King.
